PRO-GERMAN REVOLTS SWEEP BALTIC, IN WAR WITH RUSSIA

It's Finally Happened

But There Aint No Friend Named Joe

The Axis has fallen apart. The Berlin-Rome alliance which was supposed to be a world-encircling machine with Japan as a military partner and Russia as an economic partner is revealed this Monday afternoon as but a single war power-Germany—with a fast-shuffling deck of dependents, not allies. There are a lot of coyotes in the pack, but only one wolf. For Italy is ineffective militarily, Japan is afraid to move—and now Germany has declared war on Russia.

Extension Service Funds Increased for Coming Year

Arkansas farmers' educational in-stitutions will begin receiving the full amounts of their annual appropriations beginning with the new fiscal year on July I, as legislation adopted by the 1941 General Assembly becomes operative, Waldo Frasier, executive secretary of the Arkansas Farm Bureau Federation pointed out today in communications to farm leaders in this county.

"By receiving the full amount of their appropriations, these education-al institutions serving farmers will be enabled to expand their programs and thereby render broader services to rural people," Mr. Frazier said. These institutions have been severely handicapped for several years because of curtailment of funds, a situation which was corrected through the enactment of Senate Bill No. 90 by the recent General Assembly."

This measure, introduced by Senator Eugene Baker of Newport and Senator T. S. Iovelett, Jr., of Star City, recodifies the state alcoholic liquor tax structure and guarantees to the several funds sharing in the revenue from this taxation the full amounts of their appropriations. Hempstead county, along with all others in the state will be favorably affected by the increase in funds.

Farmers, as a result of the same legislation, will have \$42,301 for the payment of indemnities for animals condemned under the Bang's disease control program. This amount will be matched by federal funds. There was no appropriation for this work in however \$20,000 was made available out of the governor's emergency fund.

"I said that before I knew you made a habit of sleeping in jails every night."

"Now, Addie, that ain't true. That was just bad luck. I'm sorry the papers printed your name and all that Caliban and Ariel stuff. What does that mean, anyhow?" Adoreen glances furtively down the hallway. "Whatever it means, we're not it. Oh, come on in. But "She don't know Mr. Oh, come

Anyway, it's about three spinster sisters who are crazy as hoot-owls. They move in on a rich old doll who lives in an elegant but spooky house among some eerie moors (courtesy of Lionel Banks, art director). Along comes a batty nephew of the mad sisters and upsets their demented lives, discovering that one of his dear aunties has murdered their hostess and stuffed the body into an oven. This may not sound like comedy, but much of it is being played for comedy, especially between the two elder spinsters. Elsa Lanchester and Edith Barrett are sure to be typed by this adventure as a new pair of pixilated sisters.

Another Laughton Stars

Miss Barrett, stage-actress wife of incent Price, hasn't been troubled by movie typing because this is her first picture. Miss Lanchester, wife of Charles Laughton, hasn't done many films but has been variously typed by the last three. She was under contract to Metro when she and Laughton made their second trip from England, but the studio officials had seen "Henry VIII," in which Miss Lanchester played Anne of Cleves, and could think of her only as an uppity little German blond.

So she was loaned to Universal for "The Bride of Frankenstein" and she your reserve? In the World War there was a big migration of labor from this area to Detroit and Akron and the industrial centers. When the war was over, they had to go back home, their silk shirts in rags and tatters, and they damined up on the land,

FSA now has loans outstanding to

some 400,000 families in this southeastern-Appalachian area alone Perhaps 25,000 to 50,000 people from these these 400,000 families have already left to take defense jobs. The industrial centers have again become the frontiers to which the pioneers want to flock and it's going to be a job to keep them put.

On top of this general resettlement problem is the old problem of migratory labor, which is another FSA haby that has to have its nursing formula changed by the defense colic The old pre-war harvest hand migra-tion of the midwest has of course been killed by the combine tractor but the citrus-fruit-truck farm migrations from Florida to Maine and back, and the citrus-cotton-truck-fruit harvesters' migrations from the Ric Grande to the Canadian border are essential to the harvesting of seasonal crops, and the labor supply for this job must be maintained.

The big worry now is that there won't be enough Okies to go 'round. Some of these sons of Okies have been tinkering with model T Fords so long they've become pretty fair mechanics and the west coast aircraft

factories are after 'em. Times certainly have changed.
